

## DISCLAIMER AND WARNING FOR THE PURCHASE AND USE OF SMALL LIQUID ROCKET ENGINES

### IMPORTANT NOTICE: READ BEFORE PURCHASE AND USE

This document outlines important information that individuals must be aware of before purchasing and using small liquid rocket engines ("Engines"). By purchasing and using Engines, you acknowledge and agree to the terms and conditions outlined below:

#### Expertise and Experience:

Engines are powerful devices that require a high level of expertise and experience in rocketry, propulsion systems, and related fields.

The purchaser should have a thorough understanding of the principles of rocket science and possess the necessary skills to handle and operate such devices safely.

#### Safety Precautions:

Engines should be operated in a controlled and designated area, adhering to all local, state, and federal regulations.

Protective gear, including but not limited to, safety glasses, gloves, and flame-resistant clothing, must be worn during all phases of operation.

#### Training and Education:

The purchaser should undergo proper training and education in the safe handling, storage, and operation of rocket engines before attempting to use them.

#### Pre-Purchase Consultation:

Prospective buyers are encouraged to seek advice from qualified professionals in the field of rocketry before making a purchase.

For any questions or concerns, please contact RocketFluid at the following:

Name: Michael A. Folger

Email: [RocketFluids@gmail.com](mailto:RocketFluids@gmail.com)

#### Assumption of Risk:

The purchaser acknowledges and assumes all risks associated with the purchase and use of Engines. This includes, but is not limited to, personal injury, property damage, and legal consequences.

#### Release of Liability:

RocketFluid is not responsible for any accidents, injuries, damages, or legal consequences that may arise from the use or misuse of Engines.

I, the undersigned, have read and understood the above terms and conditions. By signing below, I acknowledge that I have the necessary expertise, experience, and understanding to safely handle and operate small liquid rocket engines.
